

UPDATE ON PLACEMENT OF 6 RADAR SPEED SIGNS

After continued input from residents, Chief Munson and R. Wood re-staked some of the locations for the Radar Speed Signs on Silver Street, Cooper Hill Road and Rannapo Road. Each of these new locations is described below. If you have any further input, please send it to rwood@sheffieldma.gov by Tuesday, October 12th.

SILVER STREET – Three signs.

- **Traveling basically south-west from Rt 7 to CT:** There is one sign placed 57' right past the railroad crossing, just past Plaskolite on the left and before 139 Silver Street, also on the left. (The railroad right of way is being checked and this sign may move slightly based on this.)
- **Traveling from CT toward RT 7, basically north-east:** There are two signs.
 - The first is on the left side of Silver Street, below the white house, between a large tree and a smaller group of trees, and before 1504 Silver Street on the right. It is a little over 2/10 of a mile from the Silver Street / Cooper Hill Road split.
 - The second sign is 465 Silver Street, before 416 Silver Street on your left, by a large tree covered with vines and across from the yellow/black curve ahead sign.

COOPER HILL ROAD – One sign.

- **Travelling to Ashley Falls Village:** There is one sign, approximately 6/10 of a mile from the Cooper Hill / Silver Street split, going basically east. It is on the same side of the street and near the curvy road ahead sign but before 314 Cooper Hill Road on the left.

RANNAPO ROAD – Two signs.

- **Travelling on Rannapo Road, past the junction with Cooper Hill Road, going toward the Ashley Falls Village:** There is one sign, near the 30 mph sign but before housing area.
- **Travelling from Ashley Falls Village toward RT 7A:** there are two signs.
 - Across from Twin River Farms sign, on same side of the street but before 1219 Rannapo.
